RÅVAROR
Things change
September 2020
Designs for life-changing times.

Change is constant – now more than ever. That’s why it’s even more important for your home to be a constant center of comfort that’s easily adaptable. Introducing RÄVAROR: a collection of high-quality, multi-functional furnishings that let you make yourself at home in the smallest spaces, wherever you live, now and later.
Designed to fit. Made to move. Built to last. Flexibility follows function.

That gives you freedom: to live anywhere, rearrange on a whim, move anytime. With RÅVAROR, wherever you go, you’re always at home.

Quality ingredients. Make them your own.

RÅVAROR means ‘fresh produce’ in Swedish. Quality ingredients you combine your way. Components crafted of wood, steel, denim and wool, designed with the simplicity, function and flexibility that define Scandinavian design. Arrange them to fit your space and how you live. Then, when you move, you can take your whole home with you – because it’s all built to last and made to fit in your next place too.

“If you’re always moving things around – to make room for yoga, to work from home, to welcome lots of people for dinner (or just a few) – these are designs for you. Because furniture that’s flexible, transformable and easy to move is essential to creating an everyday life that works for you.”

- Viveca Olsson, Product & Design leader
Less furniture. More function.

The more time you spend at home, the more flexibility and multi-function matter.

With RÅVAROR, every thing does many things. A storage box on wheels serves as a coffee table too. A rolling bench that’s also a storage shelf slides away under a table. A tray with folding legs lets you can carry a lot, eat in bed, or elevate your laptop to instantly create a stand-up work station. Your mini-kitchen starts and ends the day doing double duty as a vanity. Your wardrobe rack rolls to quickly rearrange your room – and can be loaded as your transport trolley when it’s time to move again. You can never know what change is coming, but with RÅVAROR, you can be ready.
Fall asleep on the day-bed

Rest and relaxation in one spot: it’s both a sofa for socializing and snacking and a comfortable bed for sleep. The durable denim cover, like your favourite jeans, wears well and only gets better with time. The matching denim carry bag holds your bedlinen while you’re awake and becomes an extra cushion.

“Simple solutions make your everyday life easier. A sofa that works for sitting, sleeping, lounging and entertaining friends is just what you need when your kitchen and living room share the same space.”

- Eva Lilja Löwenhielm, Designer
Eat at your desk, work at the dinner table

Room for both at the wooden dining table. The console table is the same height, put them together to make room for friends. Use the tray to carry food or work gear – then just unfold the legs to elevate your laptop and create a stand-up work space.

“Living with less can help the environment and your wellbeing. And it’s easier when every item in your home does more than one thing – such as pieces that work well for all kinds of activities or roll to quickly rearrange your space to suit your everyday life. Because every day is different.”

- Mikael Axelsson, Designer
All your clothes, all organized

Everything is easy to find and put away on your wardrobe rack with rails for hangers, plus space for stacking storage boxes to hold folded clothes and sorters for small stuff and accessories. Sturdy steel construction offers stability and strength and make this rolling rack a transport trolley for when you move.

“I’ve always wanted storage that's mobile, so I can rearrange my space on a moment’s notice and also use it to transport things when I move. Strong and stable with sturdy wheels that roll easily, this wagon does the trick.”

- Ola Wihlborg, Designer
Get up, get ready, get something to eat

Rinse and repeat. Wash up, make-up, grab your toothbrush it’s right here – your mini kitchen doubles as your vanity to start and end your day. The rest of the time, it’s where you make meals and do dishes with everything handy in smart storage boxes – from utensils to soap to recycling. Just what you need, no wasted space.

“The birch RÅVAROR storage box is designed in three layers that stack neatly together, letting you keep anything from cutlery to tools, pens, sewing equipment or make-up in a simple, easy-access place.”

- Mikael Axelsson, Designer
Storage and seating, where you want it

Store stuff on it, roll it where you want it (which may be out of the way). Your storage shelf is also sturdy bench for extra seating. Need room to dance or do yoga? It’s just the right height to roll under the table.

“The tables are the same height so they can be easily combined when you need to make a little more dining space for extra guests.”

- Eva Lilja Löwenhielm, Designer
