Organically inspired

Put the ruler and rules to one side and let the form free. The only patterns here are the ones found in nature. Winding routes with no clear end or beginning. Let's welcome an outdoor life inside and live with fresh intensity.

This coordination pulls together different elements of the natural world, intensities and shades of green and natural textures to create the impression of a lush, summer's day (even when inside).

Switch up the mood!

"With the YTLÄGE pendant lamp, I wanted to express the possibility to change the atmosphere in a room in an exciting and playful way. When closed, the cylindrical shape of the lampshade spreads a cosy glow over the dining table. Pull the string, and it transforms into an open floral shape that provides a lot of light."

Designer **Lukas Bazle**

Dinner plans? The latest edition to the LISABO family is more than ready to join in the festivities. With its upholstered seat, you're guests will have a comfy spot to sit for the hours of laughter and conversation ahead.

Salt, pepper and zest

Simplicity is the key ingredient. Add a twist or a pinch of something spicy or sunny, and voila! You've created something exciting and unique. A striking graphic base is softened with touches of natural material.

The strong black and white base of this coordination lends itself perfectly to a seasonal change with simple pops of colour for impact, natural materials for something a bit unexpected and lots of multifunctional pieces for practicality.
