

**CALL for donations  
to help those affected  
by the floods in Poland**

Sisters and brothers!

In recent days, the residents of several Central European countries have been facing a catastrophic flood. It has also affected southern areas of Poland, including Lower Silesia, Opole, and Cieszyn Silesia. The rising waters have already claimed their first victims, thousands of people have had to be evacuated from flooded areas, and many have lost their homes and livelihoods.

Many cities and villages have been flooded, with homes, roads, bridges, public buildings, and other infrastructure damaged or destroyed. In some places, this year's flood has caused greater damage than in 1997 and 2010. We do not yet know the full extent of the losses, as the floodwaters continue to reach new areas. However, we already know that addressing the aftermath of this disaster will require significant resources and years of effort.

Therefore, in these difficult times, **we appeal for help for those affected by this flood.** Let us show solidarity with those who are suffering due to the devastation caused by this disaster. Every gift given will be a testimony of love for a neighbour in need. Even the smallest contribution can help improve the difficult situation of the residents of the flooded areas.

**Financial donations to assist those affected by the flood can be transferred individually until October 15, 2024 to the bank account of Diaconia Poland with a reference note "Powodz 2024" or made via electronic payments through Dotpay at <https://diakonia.org.pl/darowizny/>.**
