GEL-NIMBUS™ 28

Knit tongue

The tongue loop makes it easier to slip the shoe on, ensuring a smooth and comfortable fit.

All-around comfort

An engineered knit upper with a plush collar lining offers a premium, breathable fit for all-around comfort.

Modern appeal

The updated heel construction and pull tab offers a modern, streamlined look while reducing weight for a lighter overall feel.

Soft landings

PureGEL™ technology delivers enhanced shock absorption for softer, smoother landings.

Hybrid ASICSGRIP™ technology

Provides a soft feel and excellent traction no matter the conditions.

Cloudlike cushioning

FF BLAST™ PLUS cushioning creates a soft, lightweight feel for cloudlike comfort.

A lighter footprint for a brighter tomorrow

The GEL-NIMBUS™ 28 shoe's carbon footprint is 36% lower than the industry average and has a carbon footprint of 9.3kg CO₂e/pair.*

*Assessed using ASICS' carbon footprint methodology version 1.1 and the most comprehensive reporting available for industry average running shoes, conducted by MIT (report).

GEL-NIMBUS™ 28

asics
sound mind, sound body

“For the GEL-NIMBUS™ 28 shoe, our focus was simple yet ambitious: create the most comfortable version in the history of the series, at a significantly lighter weight than the previous model, while giving it a fresh, modern look. With the GEL-NIMBUS™ 28 shoe, we aimed to deliver a more comfortable experience that helps runners move body and mind.”

- Paul Lang, Product Manager,
ASICS Creation Center
