

## Lime Technologies AB (publ)'s Annual Report for 2025 has been published

18.3.2026 14:00:00 CET | Lime Technologies AB (publ) | Annual Financial Report

Lime Technologies' annual report for 2025 has now been published and is available as a pdf file in Swedish and English, and as an ESEF file in Swedish. A separate sustainability report has also been published.

The 2025 Annual Report provides insight into, among other things:

- Growth drivers and strategic focus areas
- Business model and market positioning
- Lime's comprehensive offering
- AI as business critical value
- Verticalisation
- Corporate culture and the people of Lime
- Financial targets

"By 2025, we will deliver 13 per cent software growth, increased earnings per share and a 25 per cent EBITA margin, while strengthening our position in utility and real estate. We have a strong foundation with fantastic employees, a stable customer base and a business model that we firmly believe in. At the same time, I see great potential. We are now driving a transformation with an increased focus on software and AI as a huge opportunity to create additional business-critical value, both internally and for our customers. As CEO since the beginning of the year, I see it as my task to take us to the next level", says Tommas Davoust in the CEO's view.

The sustainability report summarises, among other things, the work within Lime's four focus areas:

- Promoting digitalisation
- Information security
- Attracting and retaining expertise
- Reducing climate impact

Lime has chosen not to print and distribute the annual report. For those who do not have the opportunity to take part in the annual report digitally, a printed copy can be ordered by contacting Lime via [ir@lime.tech](mailto:ir@lime.tech) or +46 46-270 48 00.
